Please also see our Form ADV Part 2A (“Brochure”), specifically Items 4 & 7 which further details the items listed above.

ITEM 3: Fees, Costs, and Standard of Conduct

Questions to ask us: Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me? What are your legal obligations to me when acting as my investment advisor? How else does your firm make money and what conflicts of interest do you have? How might your conflicts of interest affect me, and how will you address them?

What fees will I pay? Our fees vary depending on the services you receive. For investment management and advisory fees, the amount of assets in your account affects our investment management and advisory fee; hence the more assets you

have in your advisory account, the more revenue will be generated and thus we have an incentive to increase those assets in order to increase our revenue. These fees are collected by the custodian from your account quarterly, in advance. Financial planning fees are typically paid in advance for ongoing services based on an agreed-upon hourly or fixed fee. A one-time financial plan will be paid partly at the start of the relationship and a final payment will be required with the completion of the financial plan. Assets Under Advisement Services along with Retirement Plan Services are also typically billed in advance. Please see Item 5 of our Brochure for further details on fees and refunds. Additional information regarding our services can be further found in items 4, 6, 7 & 8 of our Brochure.

Third-Party Costs: Some investments (e.g., mutual funds, variable annuities, etc.) impose additional fees (e.g., transactional fees and product-level fees) that can reduce the value of your investment over time. You may also pay fees to a custodian that will hold your investment account. Additionally, you may pay transaction fees when a security is bought or sold in your account. You will pay the agreed-upon investment management and advisory fees and costs whether your investments increase, decrease value or is fully invested or in cash. These fees and costs will be deducted from your account each quarter reducing your investment by this amount. Please make sure you understand what fees and costs you are paying. Please also see our Brochure for additional details.

Conflicts of Interest: As an RIA and/or IAR, and fiduciary we must act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. Here is an example to help you understand what this means: 1) The revenue the Firm receives is based on the agreed-upon percentage rate in the fee schedule, paid each quarter by all Clients. Our Firm will increase its revenue if there are more assets in a Client's account (hence growing your account by performance). This also could lead to our Advisors recommending to you to add more investment assets to your account. Our Advisors act as a fiduciary and legally are bound to always keep the best interest of the Client first when making recommendations. More information about our conflicts of interest is available in our firm Brochure at <https://adviserinfo.sec.gov/firm/summary/317455>. Our Firm has adopted a Code of Ethics describing its standards of business conduct. If you would like a copy, please ask your Advisor or contact the firm by email at info@pomwealthmanagement.com or contact us at (810) 207-5311.

How do your financial professionals make money? Primarily, our Firm and our Advisors benefit from the advisory services we provide to you because of the advisory fees we receive from our clients. Our Advisors are compensated based on the amount of Client assets they service (based on the amount of revenue the firm receives from the Client accounts). Some of our Advisors also have the ability to receive commissions from Clients who decide to purchase insurance products. The purchase of insurance products is not required in order to utilize our services. Any and all commissions are paid to the Advisor directly from the Insurance company. Please also see Item 10 of our Firm Brochure for additional details.
